

Faculty Survey on Generative Artificial Intelligence (AI) Utilization in Academia

The CETL is conducting a comprehensive survey to gain insights into faculty experiences with utilizing generative artificial intelligence (AI) within academic settings. Your participation will assist us in comprehending the current landscape of AI utilization across diverse disciplines and provide valuable data for formulating future strategies in our institution's research and teaching initiatives.

The primary objective of this survey is to collect information on faculty perspectives, concerns, objectives, and success narratives pertaining to AI integration at UDM. By sharing your experiences with us, you will contribute to the development of a more comprehensive understanding of the opportunities and challenges associated with incorporating AI into teaching, research, or administrative tasks.

Your participation will be compiled in a summary report that will be prepared to facilitate discussion on our institution's future approach toward utilizing AI technologies effectively while addressing concerns. Please follow the survey link below to share your valuable input.

If you have any questions or need further clarification regarding the survey, please do not hesitate to contact the CETL, at cetl@udmercy. Your feedback is essential in shaping our institution's strategic direction and ensuring that we continue providing exceptional educational opportunities.

Thank you for your participation!
